LIST OF CONTENTS

JANUARY (PART A)

Editorial	i	
Editorial Addresses	iii	
Steroid Nomenclature	vii	
Roberta Piva, Vijay L. Kumar, Stefania Hanau, Anna Paolo Rimondi, Saverio Pansini, Gioacchino Mollica and Laura del Senno	1	Abnormal methylation of estrogen receptor gene and reduced estrogen receptor RNA levels in human endometrial carcinomas
Constanze Bonifer, Karin Dahlman, Per-Erik Strömstedt, Jan-Ingmar Flock and Jan-Åke Gustafsson	5	DNA binding of glucocorticoid receptor protein A fusion proteins expressed in *E. coli*
Jian Zhong Guo and Jack Gorski	13	Estrogen effects on modifications of chromatin proteins in the rat uterus
Oskari Heikinheimo	21	Pharmacokinetics of the antiprogesterone RU 486 in women during multiple dose administration
James E. Thomas, Rogayah Carroll, Luisa Po Sy and Mamoru Watanabe	27	Isolation and characterization of a 50 kDa testosterone-binding protein from *Pseudomonas testosteroni*
Satish Batra and Constantin S. Iosif	35	Tissue specific effects of progesterone on progesterone and estrogen receptors in the female urogenital tract
Serge Belisle, Diego Bellabarba and Jean-Guy Lehoux	41	Estradiol receptor–nuclear interactions in aging mouse uteri: the role of DNA and nuclear matrix
B. Bouillard, V. Albaladejo, M. O. Joly-Pharaboz, Y. Morel and J. Andre	45	Size heterogeneity of affinity labeled estrogen receptors in the $MtTF_4$ tumor whose growth is inhibited by estradiol, in pituitary gland and uterus
Manfred Wiegand, Beatus Ofenloch-Hähnle and Karl Eisele	53	Reactivation of the androgen receptor from murine preputial gland by thioredoxin or GSH
Bernard Boutin, Robert M. Galbraith and Philippe Arnaud	59	Comparative affinity of the major genetic variants of human group-specific component (vitamin D-binding protein) for 25-(OH) vitamin D_3
P. Negri-Cesi, F. Celotti and L. Martini	65	Androgen metabolism in the male hamster—2. Aromatization of androstenedione in the hypothalamus and in the cerebral cortex; kinetic parameters and effect of exposure to different photoperiods
J. J. Fernández-Ruiz, C. Alvarez-Sanz and J. A. Ramos	71	2-Hydroxyestradiol is not mediating the effects of estradiol on tuberoinfundibular dopaminergic neurons controlling prolactin secretion in female rats
Carl Monder and Vijaya Lakshmi	77	Evidence for kinetically distinct forms of corticosteroid 11β-dehydrogenase in rat liver microsomes
Mitsuteru Numazawa and Satoshi Satoh	85	Kinetic studies of inhibition of estradiol 2- and 16α-hydroxylases with 17α-ethynyl and 17β-cyano steroids: preferential inhibition of the 16α-hydroxylase
P. E. Lønning, P. Skulstad, A. Sunde and T. Thorsen	91	Separation of urinary metabolites of radiolabelled estrogens in man by HPLC
Yang Yi-Li, Tan Jin-Xing and Xu Ren-Bao	99	Down-regulation of glucocorticoid receptor and its relationship to the induction of rat liver tyrosine aminotransferase

Christiane Jean-Faucher, Michel Berger, Christian Gallon, Marc de Turckheim, Georges Veyssiere and Claude Jean	105	Long-term alterations on the male mouse genital tract associated with neonatal exposure to cyproterone acetate biochemical data
M. Kaufman and L. Pinsky	113	A single-site allosteric model of intracellular androgen–receptor interaction
Kazys Kraujelis and Alfonsas Dešrius	121	Transcortin biosynthesis and intracellular distribution of rat liver polyribosomes synthesizing transcortin
Book Reviews	127	
Forthcoming Papers	I	
Announcement	II	
Corrigendum	II	

JANUARY (PART B)

Proceedings of the XIII Meeting of the International Study Group for Steroid Hormones

I—The Testis: Basic and Clinical Aspects

L. Monaco, S. Adamo, M. Stefanini and M. Conti	129	Signal transduction in the Sertoli cell: serum modulation of the response to FSH
G. Forti, T. Barni, B. G. Vannelli, G. C. Balboni, C. Orlando and M. Serio	135	Sertoli cell proteins in the human seminiferous tubule
A. Fabbri, E. A. Jannini, L. Gnessi, S. Ulisse, C. Moretti and A. Isidori	145	Neuroendocrine control of male reproductive function. The opioid system as a model of control at multiple sites
E. Mulder, D. van Loon, W. de Boer, A. L. G. Schuurmans, J. Bolt, M. M. Voorhorst, G. G. J. M. Kuiper and A. O. Brinkmann	151	Mechanism of androgen action: recent observations on the domain structure of androgen receptors and the induction of EGF-receptors by androgens in prostate tumor cells
Irene Mowszowicz, Dimitri Stamatiadis, Françoise Wright, Frédérique Kuttenn and Pierre Mauvais-Jarvis	157	Androgen receptor in sexual differentiation
A. Vermeulen, J. P. Deslypere and K. De Meirleir	163	A new look to the andropause: altered function of the gonadotrophs

II—Physiopathology of Ovulation

Anna F. Glasier, D. T. Baird and S. G. Hillier	167	FSH and the control of follicular growth
P. G. Crosignani, G. Ragni, G. C. Lombroso, C. Scarduelli, L. de Lauretis, A. Caccamo, L. Dalprà, V. Cavioni, C. Cristiani, H. Wyssling and M. D. Olivares	171	IVF: induction of ovulation in poor responders
Francisco J. Rojas, Ines Moretti-Rojas, Jose P. Balmaceda and Ricardo H. Asch	175	Regulation of gonadotropin-stimulable adenylyl cyclase of the primate corpus luteum

Denis Gospodarowicz and Napoleone Ferrara 183 Fibroblast growth factor and the control of pituitary and gonad development and function

Paul Franchimont, Marie-Thérèse Hazee-Hagelstein, Jean-Marie Jaspar, Chantal Charlet-Renard and André Demoulin 193 Inhibin and related peptides: mechanisms of action and regulation of secretion

III—Endocrine-related Hypertension

E. G. Biglieri, I. Irony and C. E. Kater 199 Identification and implications of new types of mineralocorticoid hypertension

Bruce A. Scoggins, John P. Coghlan, Derek A. Denton, Amanda F. Reid, Campbell D. Spence and Judith A. Whitworth 205 Understanding the mechanism of adrenocortical steroid hypertension

Stanley Ulick, Connie K. Chan, Kode Nageswara Rao, James Edassery and Franco Mantero 209 A new form of the syndrome of apparent mineralocorticoid excess

C. R. W. Edwards, D. Burt and P. M. Stewart 213 The specificity of the human mineralocorticoid receptor: clinical clues to a biological conundrum

R. Fraser, J. M. C. Connell, G. Inglis, C. J. Kenyon and M. Tree 217 The role of dopamine in the control of corticosteroid secretion and metabolism

M. de Gasparo, S. E. Whitebread, G. Preiswerk, X. Jeunemaître, P. Corvol and J. Ménard 223 Antialdosterones: incidence and prevention of sexual side effects

Peter Weidmann, Hermann Saxenhofer, Sidney G. Shaw and Claudia Ferrier 229 Atrial natriuretic peptide in man

FEBRUARY

Moss J. Linder and E. Brad Thompson 243 Abnormal glucocorticoid receptor gene and mRNA in primary cortisol resistance

L. X. Tiefenauer, D. M. Bodmer, W. Frei and R. Y. Andres 251 Prevention of bridge binding in immunoassays: a general estradiol tracer structure

Katalin Sz. Szalay, D. De Wied and E. Stark 259 Effects of ACTH-(11–24) on the corticosteroid production of isolated adrenocortical cells

Gordana Matić, Divna Trajković, Mira Šuša, S. Damjanović and Jelena Petrović 263 *In vitro* evidence for modification of rat liver glucocorticoid receptor binding properties and transformation by hyperthermia

Michael Thomas, Jean-Dominique Monet, Mona Brami, Nicole Dautigny, Jacques Assailly, André Ulmann and Cyrille A. Bader 271 Comparative effects of 17β-estradiol, progestin R5020, tamoxifen and RU38486 on lactate dehydrogenase activity in MCF-7 human breast cancer cells

Urmila Vij, K. Murugesan, J. C. Kalita and A. Farooq 279 Interaction of antiprogestins with progesterone receptors in rat uterus

Jean S. Campbell and Harry J. Karavolas 283 The kinetic mechanism of the hypothalamic progesterone 5α-reductase

Olaf Ortmann, Gunter Emons, Rudolf Knuppen and Kevin J. Catt 291 Inhibitory effects of the antiprogestin, RU 486, on progesterone actions and luteinizing hormone secretion in pituitary gonadotrophs

G. Schleicher, U. Drews and W. E. Stumpf 299 No evidence for aromatization of [^{3}H]testosterone in oestrogen receptor containing cells of the epididymis

Meryl J. Fullerton, A. Ian Smith, Judith A. Clements and John W. Funder	303	Gonadal steroids and anterior lobe dynorphin in the male rat
Patrick J. Bednarski and Sidney D. Nelson	309	Dissociation of 19-hydroxy-, 19-oxo-, and aromatizing-activities in human placental microsomes through the use of suicide substrates to aromatase
Anie Philip, Adrian W. Pike, Paul V. Fennessey and Beverly E. Pearson Murphy	317	Identification of 20α-hydroxy-5α-pregnan-3-one and 20β-hydroxy-5α-pregnan-3-one in human pregnancy urine
Vincenzo Toscano, Rina Balducci, Maria V. Adamo, Adele Mangiantini, Claudia Cives and Brunetto Boscherini	321	Changes in steroid pattern following acute and chronic adrenocorticotropin administration in premature adrenarche
General Review **Bo von Schoultz and Kjell Carlström**	327	On the regulation of sex-hormone-binding globulin—a challenge of an old dogma and outlines of an alternative mechanism
Book Reviews	335	
Forthcoming Papers	I	
Announcements	II	

MARCH

Russell M. Gardner, Gill Verner, John L. Kirkland and George M. Stancel	339	Regulation of uterine epidermal growth factor (EGF) receptors by estrogen in the mature rat and during the estrous cycle
Kathryn E. Carlson, Maité Coppey, Henri Magdelenat and John A. Katzenellenbogen	345	Receptor binding of NBD-labeled fluorescent estrogens and progestins in whole cells and cell-free preparations
James F. Glover and Philippa D. Darbre	357	Multihormone regulation of MMTV-LTR in transfected T-47-D human breast cancer cells
Bruce R. Westley, Fritz Hölzel and Felicity E. B. May	365	Effects of oestrogen and the antioestrogens, tamoxifen and LY117018, on four oestrogen-regulated RNAs in the EFM-19 breast cancer cell line
G. A. Jahn, J. Djiane and L.-M. Houdebine	373	Inhibition of casein synthesis by progestagens *in vitro*: modulation in relation to concentration of hormones that synergize with prolactin
Toshikazu Kigoshi, Kenzo Uchida and Shinpei Morimoto	381	Elongation factor 2 as the major substrate for Ca^{2+}/calmodulin-dependent protein kinase in rat adrenal glomerulosa cells
R. Hobkirk, R. Renaud and J. I. Raeside	387	Partial characterization of steroid sulfohydrolase and steroid sulfotransferase activities in purified porcine Leydig cells
Patricia Saragüeta, Alejandro R. D. Krimer, Eduardo H. Charreau and Marta Tesone	393	Insulin regulation of steroidogenic activity in rat culture luteal cells
Vladimir Petrow, George M. Padilla, Andrew T. McPhail, Nicholas Bruchovsky and Sara L. Schneider	399	Prostate III—a structural feature characteristic of the rat prostate 5α-reductase active site
Celso E. Gomez-Sanchez, Philip G. Zager, Mark F. Foecking, O. Bryan Holland and Arunabha Ganguly	409	18-Oxocortisol: effect of dexamethasone, ACTH and sodium restriction
Susana Genti Raimondi, Nora S. Olivier, Luis C. Patrito and Alfredo Flury	413	Regulation of the 3β-hydroxysteroid dehydrogenase activity in tissue fragments and microsomes from human term placenta: kinetic analysis and inhibition by steroids
Richard A. Galbraith and Peter H. Jellinck	421	Cobalt-protoporphyrin, a synthetic heme analogue, feminizes hepatic androgen metabolism in the rat

Sten Eriksson, Kjell Carlström and Gunnar Rannevik	427	Sex steroids and steroid binding proteins in primary biliary cirrhosis
János Garai, Marietta Vértes and Sándor Kovács	433	*In vitro* effects of cytosolic inhibitor and opiates on the binding of [^{3}H]oestradiol to nuclear type II binding sites of rat uterus and hypothalamus
Anders Halling and John-Gunnar Forsberg	439	Plasma testosterone levels and ovarian testosterone content in adult mice treated with diethylstilbestrol neonatally
Kelvin E. Smith, Shahid Latif and David N. Kirk	445	Microbial transformation of steroids—II. Transformations of progesterone, testosterone and androstenedione by *Phycomyces blakesleeanus*
M. Li, E. K. Asem and B. K. Tsang	453	Sodium-dependent regulation of steroidogenesis in rat granulosa cells: possible involvement of a Na^+/H^+ antiport
L. Pinilla, M. Cocconi, S. Zoppi and L. Martini	459	Effect of neonatal estrogenization on testosterone metabolism in the prostate and in the epididymis of the rat
Mizue Mitsuma, Sachiko Yoshimura, Akira Kambegawa, Shoichi Okinaga and Kiyoshi Arai	467	Development of a direct microplate enzyme immunoassay for the determination of pregnanediol-3α-glucuronide in urine
Short Communications		
P. M. Ciotti, F. Franceschetti, C. Bulletti, V. M. Jasonni and G. F. Bolelli	473	Rapid and specific RIA of serum estrone sulfate with selective solid phase extraction
Hassan A. Amer, Ahméd S. Ahmed, Hany M. Gohar and Mohamed A. Abdel Mamid	475	Effects of steroid anaesthesia on some liver function tests in goats
Book Reviews	477	
Forthcoming Papers	I	
Announcements	II	

APRIL

S. Noguchi, N. Uchida, B. Sato, H. Koyama and K. Matsumoto	479	Growth control of androgen-dependent Shionogi carcinoma cells by growth factor(s) produced from androgen-independent Shionogi carcinoma cells in a paracrine mechanism
Casper H. van Aswegen, Robert H. Purdy and James L. Wittliff	485	Binding of 2-hydroxyestradiol and 4-hydroxyestradiol to estrogen receptors from human breast cancers
J. O. Macaulay, Z. S. Krozowski and G. L. Warne	493	Characterisation and covalent labeling of the human placental methyltrienolone binding protein
Earl M. Ritzi and Ellen B. Walthall	499	Glucocorticoids stimulate the release of a viral tumor marker (MMTV gp52) while inhibiting tumor cell growth
G. Boissonneault, J. Gagnon, M. A. Ho-Kim, P. A. Rogers and R. R. Tremblay	507	Depressed translational activity in the androgen sensitive levator ani muscle of the rat
M. Ayub and M. J. Levell	515	Inhibition of human adrenal steroidogenic enzymes *in vitro* by imidazole drugs including ketoconazole
B. Samama and Cl. Aron	525	Changes in estrogen receptors in the mediobasal hypothalamus mediate the facilitory effects exerted by the male's olfactory cues and progesterone on feminine behavior in the male rat
Mária Alexandrová, Darina Maščuchová and Peter Tatár	531	Comparison of the biopotency of corticosterone and dexamethasone acetate in glucocorticoid receptor down regulation in rat liver
Thierry Dintinger, Jean-Luc Gaillard, Ismail Zwain, Rachid Bouhamidi and Pierre Silberzahn	537	Synthesis and aromatization of 19-norandrogens in the stallion testis

Jean-Luc Foucher and Florence Le Gac 545 Evidence for an androgen binding protein in the testis of a teleost fish (*Salmo gairdneri* R.): a potential marker of Sertoli cell function

P. Parvaz, B. Mathian, M. C. Patricot, I. Garcia, A. Revol, E. Mappus, C. Grenot and C. Y. Cuilleron 553 Production of monoclonal antibodies to dehydroepiandrosterone-sulphate after immunization of mouse with dehydroepiandrosterone-bovine serum albumin conjugate

Timothy Turner, Marc Edery, Karen T. Mills and Howard A. Bern 559 Influence of neonatal diethylstilbestrol treatment on androgen and estrogen receptor levels in the mouse anterior prostate, ventral prostate and seminal vesicle

J. A. Edgar, M. Weiss and Khin Aye Than 565 Identification of 5β-pregnane and 5β-androstane derivatives in adrenal venous and peripheral blood plasma of the female possum (*Trichosurus vulpecula*)

C. M. Feek, N. L. Tuzi and C. R. W. Edwards 573 The adrenal gland and progesterone stimulates testicular steroidogenesis in the rat *in vivo*

W. Schulz, I. Lichtenstein, H. Siebe and K. Hierholzer 581 Isolectric focusing analysis of detergent extracted renal 11β-hydroxysteroid dehydrogenase

M. Weiss, J. A. Edgar, Khin Aye Than and I. R. Young 591 Identification of 5α-androstane-3α,17α-diol in adrenal venous plasma of female possum (*Trichosurus vulpecula*)

Robert W. Bonsall, Howard D. Rees and Richard P. Michael 599 Identification of radioactivity in cell nuclei from brain, pituitary gland and genital tract of male rhesus monkeys after the administration of [^{3}H]testosterone

Short Communication
D. A. Staats and H. D. Colby 609 Modulation of the effects of ascorbic acid on lipid peroxidation by tocopherol in adrenocortical mitochondria

General Review
Ferdinando Auricchio 613 Phosphorylation of steroid receptors

Book Reviews 623

Forthcoming Papers I

Announcement II

MAY

G. H. Deckers and A. H. W. M. Schuurs 625 Aromatase inhibition in hypophysectomised female rats: a novel animal model for *in vivo* screening

Gian Paolo Rossini, Ann-Charlotte Wikström and Jan-Åke Gustafsson 633 Glucocorticoid–receptor complexes are associated with small RNA *in vitro*

John S. Davis, Hector W. Alila, Leigh A. West, Robert A. Corradino, Laura L. Weakland and William Hansel 643 Second messenger systems and progesterone secretion in the small cells of the bovine corpus luteum: effects of gonadotropins and prostaglandin F2a

T. William Hutchens, Edward F. Hawkins and Francis S. Markland Jr 651 Glucocorticoid receptor from lactating goat mammary tissue comparison of native and activated forms in a cell free system

L. J. Spicer, T. E. Kiser, K. Leung and E. M. Convey 669 High performance liquid chromatography of steroids in bovine adrenal glands: changes during the postpartum interval

Pearl C. Namkung, Frank Z. Stanczyk, Mike J. Cook, Miles J. Novy and Philip H. Petra 675 Half-life of plasma sex steroid-binding protein (SBP) in the primate

P. S. Campbell, C. W. Albright, H. J. Wilson and R. R. Bridges 681 Inhibition of the nuclear localization of [^{3}H]estradiol in rat uterine tissue *in vitro*

J. J. A. M. Weusten, G. Legemaat, M. P. M. E. van der Wouw, A. G. H. Smals, P. W. C. Kloppenborg and Th. J. Benraad	689	The mechanism of the synthesis of 16-androstenes in human testicular homogenates
Benoît Bélanger, Alain Bélanger, Fernand Labrie, André Dupont, Lionel Cusan and Gérard Monfette	695	Comparison of residual C-19 steroids in plasma and prostatic tissue of human, rat and guinea pig after castration: unique importance of extra-testicular androgens in men
Antonio Guarna, Gloriano Moneti, Daniele Prucher, Roberto Salerno and Mario Serio	699	Quantitative determination of 4-hydroxy-4-androstene-3,17-dione (4-OHA), a potent aromatase inhibitor, in human plasma, using isotope dilution mass spectrometry
Laurent Dufrene, Jean Francois Pageaux, Abdallah Fanidi, Jack Michel Renoir, Christian Laugier and Etienne Emile Baulieu	703	Biochemical characterization and subunit structure of quail oviduct progesterone receptor
Stephen C. Fitzpatrick and T. Joseph McKenna	715	Dopamine inhibition of potassium-stimulated aldosterone biosynthesis in bovine adrenal zona glomerulosa cells
M. Ayata, T. Yamane, S. Okamoto, W. Li, N. Terada and K. Matsumoto	719	Increase in epithelial cell growth by hyperprolactinemia induces delay of castration-induced involution of mouse seminal vesicle
C. M. Feek, N. L. Tuzi and C. R. W. Edwards	725	Adrenalectomy does not influence basal secretion of testosterone in rat *in vivo*
J. I. Raeside, R. L. Renaud and R. M. Friendship	729	Aromatization of 19-norandrogens by porcine Leydig cells
General Review		
Miguel Beato, Georges Chalepakis, Michael Schauer and Emily P. Slater	737	DNA regulatory elements for steroid hormones
Forthcoming Papers	I	
Announcement	II	

JUNE

D. E. Saunders, M. M. Lozon, J. D. Corombos and S. C. Brooks	749	Role of porcine endometrial estrogen sulfotransferase in progesterone mediated downregulation of estrogen receptor
E. H. Moser and G. Daxenbichler	759	Purification and characterization of heat- and acid-stable progestin binding protein of rat lung
Joël Fauque, Jacqueline Scali, Vincent Cavaillés and J. L. Borgna	769	Mapping on the calf estrogen receptor of the binding domain for an antibody interfering with receptor activation
W. Wouters, R. De Coster, M. Krekels, J. van Dun, D. Beerens, C. Haelterman, A. Raeymaekers, E. Freyne, J. Van Gelder, M. Venet and P. A. J. Janssen	781	R 76713, a new specific non-steroidal aromatase inhibitor
I. J. McEwan, D. A. Rowney and M. B. Hodgins	789	Partial purification and characterisation of the human skin fibroblast androgen receptor: detection of abnormal receptor complexes in cells from patients with androgen insensitivity syndromes
Johanna C. Seegers, Mona-Liza Aveling, Casper H. van Aswegen, Marissa Cross, Francois Koch and Willem S. Joubert	797	The cytotoxic effects of estradiol-17β, catecholestradiols and methoxyestradiols on dividing MCF-7 and HeLa cells
I. Huhtaniemi, S. Rannikko, M. Orava and R. Vihko	811	Steroid sulfates in testis tissue of prostatic cancer patients treated for six months with the gonadotropin releasing hormone agonist buserelin

Harold M. Szerlip and Malcolm Cox	815	Aldosterone-induced glycoproteins: further characterization
Kazuhiro Watanabe, Kaori Takanashi and Itsuo Yoshizawa	823	Plasma estradiol 17-sulfate and 2-hydroxyestradiol 17-sulfate levels and their metabolic clearance rates in rats
Alain Bélanger, Alice Locong, Caroline Noel, Lionel Cusan, André Dupont, Jacinthe Prévost, Simon Caron and Jeannine Sévigny	829	Influence of diet on plasma steroid and sex plasma binding globulin levels in adult men
Kosuke Ichihara and Chikage Tanaka	835	Progesterone metabolism in the gastric mucosa microsomes of guinea pig
Giuseppina Mazzocchi, Piera Rebuffat, Virgilio Meneghelli and Gastone G. Nussdorfer	841	Effects of the infusion with ACTH or CRH on the secretory activity of rat adrenal cortex
C. Monder, A. Marandici, F. Iohan, V. Lakshmi and J. E. Rosen	845	Synthesis of tritium labeled cortoic acids
P. Bournot and L. C. Ramirez	851	Alternate hydroxylating activities in newborn rat adrenal cells in primary culture
A. V. Kamernitzky, I. G. Reshetova, A. A. Ovchinnikov, I. L. Shamovsky I. A. Massova and N. M. Mirsalikhova	857	Structural basis of steroid compounds interaction with "Digitalis"-receptor sites of Na, K-dependent ATPase
Anie Philip and Beverley E. Pearson Murphy	865	Low polarity ligands of sex hormone-binding globulin in pregnancy. Part I—characterization
Anie Philip and Beverley E. Pearson Murphy	873	Low polarity ligands of sex hormone-binding globulin in pregnancy. Part II—identification
Book Reviews	887	
Forthcoming Papers	I	
Announcement	II
